

January 13, 2009

To Whom It May Concern:

This is to guarantee that the materials used by Base Plastics in the manufacturing of our Elasticene, LLDPE and HDPE polyethylene comply with Federal Foods and Regulations as specified by the FDA/USDA (21cfr 177.1520)©(3.1) regarding the use of polyethylene with food contact articles. These materials may be used in contact with all food products up to 220 degrees Fahrenheit.

Our Guarantee is continuing until revoked.
Further specific identification and guarantee will be supplied only to FDA inspectors.

Sincerely,

Joseph Rosenberg
VP Operations
